

Acoustic Aspects of Hearing Aid-Ear Canal Coupling Systems

Published September 3rd, 2014

Robyn Cox, PhD

Dr. Robyn Cox wrote “Acoustic Aspects of Hearing Aid Canal Coupling Systems” in 1979. It was published as a *Monograph in Contemporary Audiology* (Volume 1, Issue 3)—the publishing company that was run by Cy Libby, of the Libby horn fame. This monograph gives a detailed and reasoned explanation for the acoustic and/or mechanical source of every resonant frequency found in hearing aids.
