

CAA Conference & Exhibition

Published March 6th, 2017

This is Canada's largest annual live event dedicated to the science and practice of audiology. We have an exciting line up of speakers from Canada, the USA and the UK on a broad range of topics to meet the needs of audiologists across the scope of practice and employment disciplines.

Learn from world-class scientists and clinicians, engage with industry representatives in our exhibition hall and discuss hot topics with colleagues, mentors and new friends. We have some fun planned also!
